

Discover the Echo Carrycot, a perfectly designed solution for busy urban parents seeking functionality and comfort. This carrycot, sold separately, provides your little one with a safe and cozy place to rest during your adventures together.

The carrycot features a hood with ventilation openings that you can easily expose for optimal air circulation. Additionally, the hood can be fully reclined, allowing your baby to have a calm and comfortable environment for sleeping. The comfortable mattress included with the carrycot adds extra support and softness.

What makes this carrycot truly special is its clever design, enabling you to fully fold it down, making it super flat. This makes it easy to store or take along, perfect for parents on the go.

The Echo Carrycot comes in typical neutral Quax colors: black, moss, and beige, ensuring you always look stylish. The chassis is sold separately in the set with the seat unit (ref. 51-521-020X).

Explore the world with your little one in the Echo Carrycot, where convenience and comfort go hand in hand.

Discover the Echo Stroller Set, an innovative combination of chassis and seat unit, perfectly designed for the modern, active parent. This buggy set offers ease of use and comfort, making every stroll with your little one simple and stylish.

The Echo Buggy can be effortlessly folded with a simple motion, even with the seat unit attached. This ensures optimal space utilization and convenience, ideal for parents on the go.

The seat unit is designed with your little one's needs in mind. The canopy can be fully extended, allowing your baby to hide away or enjoy the surroundings. The ventilation system in the canopy ensures ideal airflow, further enhancing your baby's comfort. The backrest is adjustable to various incline positions, so you can always create the perfect posture for your little one. Additionally, the backrest can be laid completely flat, allowing your baby to enjoy a refreshing nap.

With the ability to easily switch between seating directions, you can choose the parent-facing option or let your little one explore the world.
