

FLOW Series

Sleek, minimal, beautiful ... Quax loves vision and confirms its place in the international markets by introducing the Flow room, a series of designer furniture.

The legs are made of solid beech. All other materials from melamine faced chipboard. The sides with bars and the slatted frame of the beds are made of solid wood and finished with a polyurethane lacquer.

At Quax we use sustainable materials. All furniture panels meet the strict E1 standard on formaldehyde emissions. In addition we support sustainable forest management and we ask our suppliers to submit an FSC certificate. Only reputable suppliers provide quality furniture hardware and lacquers for finishing. These producers are responsible for the certificates of their products, such as EN 71-3 with attention for the migration of harmful elements. Our furniture is tested by internationally recognized bodies on EN-716 for the cots and EN-12221 for the changing tables.

The range includes a bed 120x60 cm, a bed 140x70 cm convertible to a junior version and a junior bed 200x90 cm. A chest of drawers with 3 drawers. The chest can be equipped with an optional diaper extension. Also a two- or three-door wardrobe at the bottom with storage drawers.

In the Quax collection you also will find a range of suitable accessories to enchant the child room. Buy it and you will enjoy it !
