

Quax

Stripes series

With the Stripes bedroom Quax offers a wide range of furniture with a long-lasting use in mind. Without any worries because where necessary these pieces of furniture were tested by internationally recognized authorities for EN-716 for cots and EN-12221 for changing tables.

In order to achieve this Quax uses durable materials, for example no chipboard but high-density Mdf, well-known for its intrinsic stability and strength. These boards meet the strict E1-standard regarding formaldehyde emission. Do not forget that natural wood too contains formaldehyde. In that way we support durable forestry and ask our suppliers to submit the PEFC and FSC certificates. Special care also goes to the furniture fittings. Only reputable suppliers provide us with, among others, quality runners for the sliding drawers and reliable connecting techniques, including particular attention for excentrics, necessary for connecting spare parts which have a great supporting power. Quax does not use self-rotating screws because they obstruct the dismantling and re-assembly of furniture.

The lacquer finish also gets our full attention; here too we only work with international quality suppliers and not with local producers, such as Akzo Nobel, who are responsible for the certificates for their products, for example EN 71-3 with attention for the migration of harmful components.

The delicate lines of this furniture series proves once again that design plays an important role in the corporate philosophy of Quax.

The series includes cots 120x60 cm, 120x60 cm convertible to 200x90 cm, 140x70 cm convertible into junior version, a 3-drawer chest with optional changing extension and two- or three-door wardrobes.

Good luck ! Buy it and you will enjoy it !

Quax

Stripes series : product info

1. Materials

The furniture of the Stripes series are made of Mdf for the furniture structure and melamine board for the shelves. The outer surfaces with a polyurethane laquer available in three colors namely, **14-White** and **24-Griffin** (soft grey).

2. Product codes and characteristics. (xx in the article has to be replaced by the color code)

54 01 29xx

85 cm
