

Trendy series

With the Trendy bedroom Quax offers a wide range of furniture with a long-lasting use in mind.

Without any worries because where necessary these pieces of furniture were tested by internationally recognized authorities for EN-716 for cots and EN-12221 for changing tables.

In order to achieve this Quax uses durable materials, for example no chipboard but high-density Mdf, well-known for its intrinsic stability and strength. These boards meet the strict E1-standard regarding formaldehyde emission. Do not forget that natural wood too contains formaldehyde. In that way we support durable forestry and ask our suppliers to submit the PEFC and FSC certificates. Special care also goes to the furniture fittings. Only reputable suppliers provide us with, among others, quality runners for the sliding drawers and reliable connecting techniques, including particular attention for excentrics, necessary for connecting spare parts which have a great supporting power. Quax does not use self-rotating screws because they obstruct the dismantling and re-assembly of furniture. The lacquer finish also gets our full attention; here too we only work with international quality suppliers and not with local producers, such as Akzo Nobel, who are responsible for the certificates for their products, for example EN 71-3 with attention for the migration of harmful components. The Trendy finishing is done with water-based lacquer, which has as advantages : does not turn yellow, is as good as odour-free, dries quickly, keeps its shine longer and is better for the environment.

Design also plays an important role in the business philosophy of Quax. For the Trendy bedroom for example the bars are milled out in the Mdf board, which does not only contribute to the fancy nature of this range but also to the sturdiness of the side-frames, not comparable to traditional bars. The undercarriage has been given special attention and is made of solid beech., which makes colour differences possible, depending on the tree's habitat. They reflect the richness of the natural product and must therefore be regarded as normal. The frame's finish with a quality oil may emphasize these shade differences. The charm of the natural patina is the guarantee of the natural product.

And what about the seat function of the cots ? These cots can be converted into bench, something which your toddlers will certainly appreciate.

The series includes cots 120x60 cm, 140x70 cm with optional bedrail and beds 200x90 cm, a 4-drawer chest with optional changing extension, two- or three-door wardrobe, a desk with optional drawers and changing extension as well as a night table.

Could all these be reasons which justify a price difference ?
The choice is yours. Good luck ! Buy it and you will enjoy it !

Trendy series : product info

The furniture of the trendy series are made of solid beech for the chassis, Mdf for the furniture structure and melamine board for the shelves. The beech frame is finished with a light-colored oil. The outer surfaces with a water-based polyurethane laquer available in two colors, namely, **22-White** and **24-Griffin** (soft grey).

2. Product codes and characteristics. (xx in the article has to be replaced by the color code)

54 01 41xx

Characteristics

To seat convertible cot with mattress size 120x60 cm
Bottom adjustable in three positions : 28, 44 and 57 cm

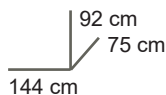

Safety

Meets the European standard EN 716:2008+A1:2013 with focus on head and finger entrapment and ventilation

Logistic information

colli 1 : 75x70x 8H - 15,50 kg
colli 2 : 125x75x 8H - 23,10 kg
colli 3 : 107x15x10H - 4,60 kg
Gross weight : 43,20 kg
Net weight : 41,10 kg
Cbm : 0,133

54 01 41xxXL

Characteristics

To seat convertible cot with mattress size 140x70 cm
Bottom adjustable in three positions : 28, 44 and 57 cm

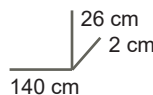

Safety

Meets the European standard EN 716:2008+A1:2013 with focus on head and finger entrapment and ventilation

Logistic information

colli 1 : 80x75x 8H - 17,90 kg
colli 2 : 145x75x12H - 31,60 kg
colli 3 : 127x15x10H - 5,20 kg
Gross weight : 54,70 kg
Net weight : 51,70 kg
Cbm : 0,198

54 01 41xxXL-BR

Characteristics

Safety barrier for cot with mattress size 140x70 cm and code 54 01 41xxXL

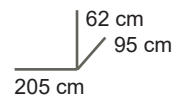

Safety

Does not need to meet a European standard.

Logistic information

colli 1 : 147x31x5H
Gross weight : 5,30 kg
Net weight : 4,80 kg
Cbm : 0,023

54 01 42xx-JUN

Characteristics

Junior bed with mattress size 200x90 cm

Shipped with a slatted mattress support

Sleeping height 42 cm

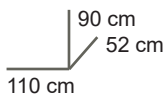

Safety

Does not need to meet a European standard.

Logistic information

colli 1 : 205x45x11H - 28,20 kg
colli 2 : 94x21x10H - 7,00 kg
colli 3 : 93x28x 9H - 8,90 kg
Gross weight : 44,10 kg
Net weight : 42,00 kg
Cbm : 0,143

54 03 42xx-4D

Characteristics

Chest of drawers with four braked and adjustable drawers with invisible handles

Inner size drawer : 48x43x21H
Option : changing extension 54 03 42xx-E

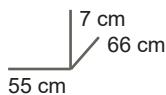

Safety

Does not need to meet a European standard.

Logistic information

colli 1 : 72x59x17H - 30,60 kg
colli 2 : 115x60x11H - 32,40 kg
colli 3 : 91x15x10H - 4,00 kg
Gross weight : 67,00 kg
Net weight : 65,00 kg
Cbm : 0,161

54 03 42xx-E

Characteristics

Changing extension for chest of drawers 54 03 42xx-4D. Deepens the cabinet with 22 cm. Should be used with the Quax diaper pad 54102-EU-xx

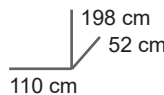

Safety

Meets the diaper European standard EN 12221:2008+A1:2013 highlighting the strength of the edges, roll of the child and finger pinching

Logistic information

colli 1 : 69x25x9H
Gross weight : 4,20 kg
Net weight : 3,90 kg
Cbm : 0,016

54 04 46xx

Characteristics

Cupboard with two hinged doors and hidden handles
Equipped with six small shelves and one clothes rod

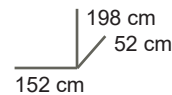

Safety

Does not need to meet a European standard.

Logistic information

colli 1 : 179x57x 7H - 28,20 kg
colli 2 : 180x58x 7H - 25,70 kg
colli 3 : 179x57x 7H - 27,50 kg
colli 4 : 121x56x 8H - 20,60 kg
colli 5 : 91x15x10H - 4,00 kg
Gross weight : 105,90 kg
Net weight : 101,40 kg
Cbm : 0,285

54 04 46xxXL

Characteristics

Cupboard with three hinged doors and hidden handles
Equipped with eight small shelves and two clothes rods

Safety

Does not need to meet a European standard.

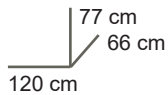

Logistic information

colli 1 : 179x57x 8H - 28,50 kg
