

Quax

LOFT series

The Loft room does not give you a financial hangover, but a nice package of furniture, sleek design and at an attractive price. Quax loves the minimal and confirms its place on the international markets. Tested by internationally recognized bodies on EN-716 for the beds and EN-12221 for the changing tables and with long-term use in mind

The legs are made of solid beech. All other materials from melaminated chipboard. The sides with bars of the beds are also made of solid beech and the slatted mattress support of solid lime. Sides and slats are finished with a polyurethane lacquer.

At Quax we use sustainable materials. All the furniture boards meet the strict E1 standard on formaldehyde emissions. We support sustainable forest management and we ask our suppliers to submit the PEFC and FSC certificates. Only reputable suppliers provide us with, among others, quality sliders for the drawers and reliable connecting techniques. The paint finish is another point of attention, we only work with international quality suppliers such as Akzo Nobel and no local producers. All producers are responsible for the certificates of their products, for example EN 71-3 with attention for the migration of harmful elements.

The range includes beds 120x60 cm, 140x70 cm convertible into a junior version, a chest of drawers ,with 2 drawers and 3 open compartments, which can be equipped with an optional lounge extension and a two or three-door wardrobe with an open compartment..

As part of the Quax Inclusive Design, we offer a wide range of matching accessories to enchant the children's room with a wow factor - Be Inspired.

Buy it and you will enjoy it !.
